## 9. Professional training

The first-cycle students of *International Business and Finance* must take a minimum of 120 hours of professional training during the 5<sup>th</sup> term of their studies. Students are awarded 4 ECTS points for the completion of their training.

To evaluate the educational outcomes attained by students on taking their training, each first-cycle student of *International Business and Finance* must have a written certification of their training and an opinion confirming the acceptance and realisation of the outcomes set out in the curriculum.

## 10. Form of study completion

The completion of studies and the award of a graduation diploma are conditional on the achievement of the outcomes set out in the curriculum, for which 180 ECTS points are awarded, the approval of diploma dissertation, and passing of the diploma examination.

Diploma dissertation is an independent compilation of a scientific problem presenting a student's general knowledge connected with their subject and the skills of independent analysis and inference. During their first-cycle studies of *International Business and Finance* (general academic profile), students prepare their Bachelor dissertations.

A Bachelor dissertation is a written confirmation students have acquired the skill of using their knowledge gained in the course of first-cycle studies of *International Business and Finance* to solve practical or research problems important to social sciences and the discipline of economics and finance.

The subject matter and extent of diploma dissertations must be related to the subject of studies. The process of diploma award, including the conditions and requirements associated with the preparation of a diploma dissertation, as well as the rules of diploma examination, are laid down in the Rules of first-cycle studies of *International Business and Finance*.
